Protecting Our Children • Preserving Our Culture

Enhancing Basic Skills for Tribal/First Nations Child Welfare Workers Learning Objectives

Upon completion of this training, participants will:

1. Conduct a culturally-based interview using ethnographic techniques to build rapport with child welfare families.
2. Know the basic elements of a care coordination plan rooted in a culturally-based assessment.
3. Recognize and be able to address substance abuse issues in child welfare families.
4. Communicate key information to the court via a written court report.
5. Know why case recording is essential and what information is standardly kept.
