

## Working With Substance-Abusing Families Learning Objectives

### **Upon completion of this training institute, participants will:**

1. Be able to discuss the impact of parental substance misuse on children.
2. Know five functions that tribal child welfare workers can play to work successfully with substance-abusing families.
3. Understand the relationship between the progression of substance use disorders, treatment, and child welfare interventions.
4. Know the promise and importance of interagency collaboration with substance-abusing families.
